

Safety and Risk Services

MEM helps you Work with confidence one safety measure at a time.

Workplace accidents can devastate families emotionally and financially, reduce productivity and drive up workers compensation insurance premiums. At MEM, our vision of safe, healthy, injury-free workplaces is at the heart of what we do.

We know every industry has unique risks. Employees provided with a safe workplace and the knowledge to navigate those risks can do their jobs with confidence. They're happier, safer, and healthier - and that's good for business.

Our Safety and Risk Services (SRS) team can provide consultations on how to improve your business operations, safety information, point you to resources, or connect you with customized training.

We're here to educate and help you achieve your safety goals.

INDUSTRY EXPERTISE

Our SRS team members have an average of more than 22 years of experience. The team specializes in operational improvements, industrial hygiene, ergonomic evaluations and custom training.

SAFETY GRANT PROGRAM

MEM policyholders in select states can apply for a one-to-one matching funds grant to purchase equipment that enhances safety in the workplace.

CUSTOMIZED CONSULTATION

Our customized, consultative approach to evaluating workplaces helps your bottom line by reducing risk and preventing losses. We'll guide you through safety program development and help improve your overall business operations.

PERSONALIZED TRAINING

We believe there's no one-size-fits-all solution to safety training. We have consultants to help you design a training program that fits your company, your employees, and your unique environment.

In fact, year after year more than 85% of our policyholders are injury-free.

On average, 10,000 employees benefit from MEM safety training each year.

SAFETY SERVICES THAT SET US APART

- Unmatched access to experienced safety and health professionals
- Safety Grant Program
- Comprehensive safety program consultation
- Customized in-person and virtual employee training
- Exclusive learning management system access

MEM helps you lower your e-mod and receive the most value from your work comp insurance. This value is why it's so important to choose a work comp carrier seeking a long-term partnership. Our promise is to provide the services and resources you need to help every employee work with confidence. Investing in your safety is central to who we are.
